

Nedform cold forming machine

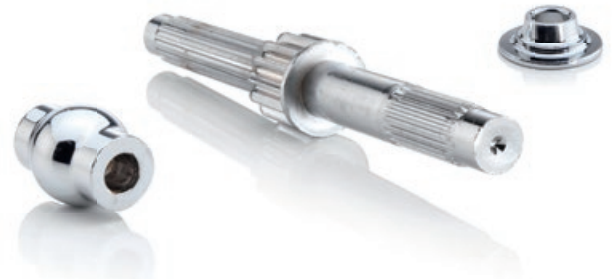

High productivity and flexibility

Metal cold former for wire diameters from 5 to 33 mm and product lengths up to 370 mm. Precision engineering makes the Nedform running smoothly at high speed and ensures a high-quality output. The unique modular concept enables customers to choose exactly the right features that are needed to fulfil their specific requirements.

Benefits

- Durable design
- Consistent product output and long lifetime of tooling
- High productivity
- Operator friendly and easy maintenance
- Product versatility: suitable for an extensive wide range of products
- Modular concept

Specifications

Machinetype	NHX12	NHX15	NHX15L	NHX18	NHX18L	NHX22S	NHX22M	NHX22L
Number of dies	4-5-6	4-5-6	4-5-6	4-5-6	4-5-6	4-5-6	4-5-6	4-5-6
Maximum wire diameter (mm) (at 600 N/mm ²)	12	15	15	18	18	22	22	22
Maximum speed (parts/min.)	240	210	210	180	160	180	160	140
Maximum kick-out length (mm)	100	125	135	145	160	100	160	210

Machinetype	NHX22EL	NHX25M	NHX28S	NHX28M	NHX30S	NHX30M	NHX33M
Number of dies	4-5-6	5-6	4-5-6	4-5-6	4-5-6	4-5-6	4-5-6
Maximum wire diameter (mm) (at 600 N/mm ²)	22	25	28	28	30	30	33
Maximum speed (parts/min.)	120	120	130	115	130	115	90
Maximum kick-out length (mm)	280	250	100	200	100	200	200

X = Number of dies
